
EE 66
Fall 2026

Signals, Dynamics, and Information

Homework 0

This homework is due Friday, August 28th, 2026 at 23:59.

Submission Format

Your homework submission should consist of a single PDF file that contains all of your answers (any handwritten answers should be scanned).

Submit the file to the appropriate assignment on Gradescope.

1. Syllabus

Read the course syllabus and answer the following questions.

The syllabus can be found here: <https://eecs66.org/policies.html>.

(a) Which of the following are graded portions of the course?

- (i) Lecture
- (ii) Discussion
- (iii) Homework
- (iv) Lab
- (v) Ed
- (vi) Exams
- (vii) Mini-vitamins

Solution:

iii, iv, vi, vii

(b) How many mini-vitamins are used to calculate your final grade?

Solution:

TODO: confirm the number of mini-vitamins counted toward the final grade for this semester.

(c) Which of the following statements are TRUE about the exam clobber policy?

- (i) You must submit an exam redo in order to be eligible for clobber.
- (ii) When an exam is clobbered by another exam, its score is simply replaced by the maximum of the two exam scores.
- (iii) Your score for Exam 2 can be used to clobber Exam 1.
- (iv) Your score for Exam 3 can be used to clobber Exam 1.
- (v) If I submit the Exam 2 redo in time, this lets me use Exam 2 to clobber Exam 1

Solution:

i, iii

(d) Exam 1 has a mean of 60 and standard deviation of 15. Exam 2 has a mean of 70 and a standard deviation of 10. If I score a 50 on Exam 1 and score an 80 on Exam 2, and submit the Exam 1 redo on time, what will be my Exam 1 score after clobber?

Solution:

75

(e) Which of the following will lead to receiving a ZERO for a homework submission?

- (i) Submitting it after Friday at 11:59 PM
- (ii) Submitting it after Sunday at 11:59 PM
- (iii) Leaving homework questions blank
- (iv) Giving an incorrect answer
- (v) Not correctly selecting the question page(s) in your Gradescope submission
- (vi) Writing a solution that does not indicate a bona fide effort

Solution:

iii, iii, v, vi

(f) Which of the following are situations in which you may request a homework exception?

- (i) It's 12:00 AM on Monday but Gradescope was bugging out so you couldn't turn it in.
- (ii) You are experiencing a serious family or medical emergency which will require you to miss more than 2 homework assignments.
- (iii) You have appropriate DSP accommodations.
- (iv) You chose to use your homework drops for the weeks leading up to exams, but now you've run out of them.

Solution:

ii, iii

(g) If you need exam accommodation, whom do you contact and how?

Solution:

Head TAs via email at eeecs16a@berkeley.edu.

You should contact the head TA as soon as possible.

(h) When is homework 1's (not this homework) due date? When does homework's 1's grace period end? In general, what day of the week is the homework due and at what time, and generally when does the grace period end?

Solution:

Homework 1 is due Friday, January 30th at 23:59 Pacific Time. The grace period for Homework 1 ends on Sunday, February 1st, at 23:59 Pacific Time.

All homework assignments are due on Friday at 23:59 Pacific Time, and their grace periods end on the following Sunday at 23:59 Pacific Time.

(i) After homework solutions are released, what are you encouraged to do?

Solution:

Since assignments are graded on completion rather than accuracy, your score does not indicate mastery of the content. You are encouraged to compare your work with the provided solutions to ensure you truly understand the material and to identify which topics need further review

(j) How many homework drops are provided? What are the conditions to get more homework drops? (Reminder: the homework drop is for extenuating circumstances such as getting sick, family emergencies, etc. You should plan on completing and submitting all homework assignments.)

Solution:

You get two homework drops. You do not need to request them or contact us — your lowest scores are dropped automatically. Please reserve them for emergencies.

TODO: confirm the conditions under which additional homework drops are granted this semester (e.g. a serious family or medical emergency causing you to miss more than two assignments, or appropriate DSP accommodations), and whom to contact.

- (k) Fill in the blank: You should attend one discussion section on _____ and one discussion section on _____ each week.

Solution:

You should attend one discussion section on Tuesday and one discussion section on Thursday each week.

- (l) Provide a complete list of everything you must do in order to receive credit for your homework assignments. Note that we're just looking for a high-level overview (think bulleted list).

Solution:

To receive full credit you must submit a scan of your work, including any necessary printouts and/or screenshots of your Python code (all compiled into a single pdf document) to Gradescope before the Friday submission deadline, and make sure to tag your pages to the appropriate questions.

- (m) Read the following guide:

<https://docs.google.com/document/d/1bTyQE6-MhExK5ZXP9nW4Zyjo1MHSzZNR-MNq7ExztoY/edit?usp=sharing>.

What are the five steps in the submission process for a PDF on Gradescope? Please note that if you do not select pages for each question/subquestion we cannot grade your homework and we will be forced to give you a 0.

Solution:

- i. Find the appropriate assignment in the Gradescope portal.
- ii. Select "Submit PDF".
- iii. Upload your single PDF, containing both your (scanned) handwritten answers and a "printout" of your iPython code (can be concatenated with www.pdfmerge.com).
- iv. There will be one question in the gradescope submission. **Assign all your pages to question 1!** All of your work (including iPython pages) must be assigned to the corresponding subproblem before you click "Submit", or you will not receive credit for that work.
- v. Click "Submit" in the lower right-hand corner. If you have selected pages correctly, you will not have to click through a warning message.

- (n) Fill in the blank:

If you miss ____ or more labs you will automatically fail the class.

Solution:

If you miss 3 or more labs you will automatically fail the class.

- (o) An extenuating circumstance is preventing you from attending Lab for multiple weeks in a row, so you would like to reach out to course staff. Where should you email?

Solution:

ee66-lab@berkeley.edu

- (p) As a student in this course, what online forum should you check regularly?

Solution:

Ed.

- (q) Which of the following may lead to your post on Ed being ignored or taken down by course staff?

- (i) Your post is not related to EE 66 in any way.
- (ii) You post a question that has already been answered in lecture.
- (iii) You include homework solutions in a public post.
- (iv) You ask questions about homework in the thread for a lecture.
- (v) You ask a question about an assignment that was already due.

(vi) You post a question about discussion with the flag "Homework"

Solution:

i, iii, iv, vi

(r) Fill in the blanks: As a member of the UC Berkeley community, I act with ____, ____, and ____.

Solution:

Honesty, integrity, and respect for others.

2. Homework resources

If you need help on a homework problem or have a question about the material, what are some of the resources you might be able to use?

- (i) Homework party
- (ii) TA office hours
- (iii) Professor office hours
- (iv) Asking a friend taking 16A
- (v) Posting on Ed
- (vi) Going to discussion
- (vii) All of the above

Solution:

vii.

3. Homework Process and Study Group

Whom did you work with on this homework? List names and student ID's. (In case you met people at homework party or in office hours, you can also just describe the group.) How did you work on this homework? If you worked in your study group, explain what role each student played for the meetings this week.

Solution:

I first worked by myself for 2 hours, but got stuck on problem 5. Then I met with my study group.

XYZ played the role of facilitator ... etc. We were still stuck on problem 5 so we went to office hours to talk about the problem.

Then I went to homework party for a few hours, where I finished the homework.
